Your Complete Mechanical Design & Manufacturing Solution From Concept Through Production

OSE Product Development has been Providing Professional Product Development, Engineering, & Manufacturing Services to the Southern California Community for Over 10 years. We bring to the table Over 20 years of experience in both Mechanical Design & Manufacturing. Our Clients are guaranteed Professional and Reliable Support, whether it be for development of a full product line, or just some additional capacity for their strained engineering department. We treat all of our customers with the Respect and attention to detail that they deserve.

Services

- Mechanical Design & Product Development
- Full Documentation Packages
- Detail Drawings
- Assembly Drawings
- Bill Of Materials
- Product Specifications
- Installation and Assembly Instructions
- Reverse Engineering
- Design for Manufacturing
- Cost Reduction
- Photorealistic Rendering and Animation
- Rapid Prototyping
- Manufacturing
 - Sheet Metal (CNC & Stamping)
 - Machining (Milling & Turning)
 - Injection Molding & Casting

Experience

- Proficiency in multiple CAD packages
 - SolidWorks Pro Engineer
 - Solid Edge Autocad
 - Cadkey
- Tooling and Fixture Design
- Parts design for many processes
 - Machining
 - Injection Molding
 - Cast and Forging
 - Sheet Metal
 - Design
 - Flat Pattern Layout
 - CNC Programming
- Individual Parts to Large Assemblies
- Geometric Tolerancing
